

Cetex Petrochemicals Ltd

CINNAMIC ALCOHOL

Applications

Used in flavor, fragrance and pharmaceutical industries.

It adds spicy oriental notes to soap, perfumes and household items like detergent blends and offers warm and balsamic sweet notes.

Used in apricot, balsam, bath salts, cassia, and cherry, cinnamon imitations.

In perfumery, it is used in various floral fragrances like lilac, rose, muguet, jasmine, and carnation.

It is used as a flavoring agent in food products like non-alcoholic beverages and ice creams.
